

good session

Amazing and Motivated session

Slide should cover the contents of the presentation

Very good sharing by Prof. Prof answer the questions given with very simple example and situation. Easy to understand.

good sharing on tips how to make the student independent.

good

Really helpful and useful tips for me in managing my postgraduate student supervision

More sharing like this should be done. Maybe also from the past post-graduates experience. Thanks Caes.

More such seminars should be organized

It is always good to have someone like Prof Joseph since his tips are based on his experience across different cultures and student mindsets.

Maybe for future sessions, we can include academic staff with experience managing Middle-East students and the cultural differences between different countries (e.g. Arabs, Yemeni, Iranian etc.).

very good session. good tips and info from speaker as well as i can apply when i become an sv soon

Gain knowledge related to the topic discussion.

Great sharing by Prof Joseph. Useful information and will try to implement all the suggestion in my research supervision. Thank you very much.

Good. and very informative session

A good sharing by Prof Anand..

good explanation

very useful information & tips to manage postgraduate supervision, please invite prof Anand again for supervision training under caes

Good sharing by Prof Joseph

Good sharing by Prof Anand!... and tahniah Dr. Khairul Anwar / Prof Madya Dr. Mariam - byk buat program2 terbaik untuk academician and researchers.

Good tips on the title and the objective should come from the student themselves so they can take ownership of their work.

ok

Great session. So motivated.

good

Would be good if there is a session on how to supervise (tips and tricks) international students especially from the middle east.

Voice of the speaker is quite soft/slow throughout, maybe a bit far from microphone. However the contents were good.

Interesting. Need more training about supervision and in future maybe require more deep information regarding real case how to motivate both student n supervisor in expediate the research. Also if the student nnot a good writer and sometime maybe slow leaner

Awesome. A walk-the-talk one.
