

Blended Status

The screenshot displays the BITM1113 MULTIMEDIA SYSTEM course page. The browser address bar shows the URL: <http://ulearn.utem.edu.my/sem1201819/course/view.php?id=8654>. The page header includes the course title and navigation links: Home / Faculty of Information and Communication Technology / Bachelor Degree / BITM1113 (FAAIAZH). A "Turn editing on" button is visible in the top right corner.

The main content area is divided into three sections:

- Navigation:** A sidebar menu on the left with the following items: Home, Dashboard, Site pages, Current course, BITM1113 (FAAIAZH), Participants, Badges, General, EVALUATION & FEEDBACK, TEACHING PLAN, WEEK 1, WEEK 2, and WEEK 3.
- Announcements:** A section titled "Blended Learning Guide (Please Hide)" with a list of items: Teaching plan (minimum 1), Teaching Plan (RESOURCES -> File), Resources (minimum 7), Book / File (ie: ppt slides) / Page / URL, Activity (minimum 3, with proof of student participation), Chat/Feedback/Forum/Glossary/Wiki, Assessment (minimum 2, with proof of student attempt), and Assignment / Quiz. Below the list is a link: "For more information about Blended Learning, Click here".
- Latest announcements:** A section titled "Latest announcements" with a button "Add a new topic..." and a message: "(No news has been posted yet)".

The "Course Blended Status" section is highlighted with a blue border. It contains a table with the following data:

Course Blended Status	
Teaching Plan	1
Resources	14 (min. 7)
Activities with participation	3 (min. 3)
Assessment with attempts	3 (min. 2)
Blended status	>30%

Below the table is a "Status" section with a button "Open all" and a dropdown menu "Close all". Instructions: "Clicking on the section name will show / hide the section." A blue button labeled "EVALUATION & FEEDBACK" is visible at the bottom of the main content area.

Forum question

The screenshot shows a web browser window with the URL http://ulearn.utem.edu.my/sem1201819/mod/feedback/show_entries.php?id=181376. The page is titled "Windows versus Macintosh...which one better?". The sidebar on the left contains navigation links for "EVALUATION & FEEDBACK", "TEACHING PLAN", "WEEK 1", "WEEK 2", "WEEK 3", "WEEK 4", "Lecture Notes Week 5", "Lecture Notes Week 6", "Lecture Notes WEEK 7", "Lecture Notes WEEK 8", "Lecture notes WEEK 9", "Lecture Notes WEEK 10", "Lecture Notes WEEK 11", "Lecture Notes WEEK 12", "Lecture Notes WEEK 13", "My courses", and "Courses". The "Administration" section includes "Feedback administration", "Edit settings", "Locally assigned roles", "Permissions", "Check permissions", and "Filters".

Response number	Windows versus Macintosh...which one better?	Windows versus Macintosh...which one better?	Windows versus Macintosh...which one better?	Windows versus Macintosh...which one better?
Response number: 1	BITM1113 (FAAIZAH)	windows	windows	windows
Response number: 2	BITM1113 (FAAIZAH)	In my opinion, I prefer Windows OS rather than Mac OS. These are some of the reasons why. Computer models and prices Windows OS can be found on various computer brands and specifications. Its prices may vary from hundreds to thousands of ringgits. Mac OS only available on Apple computers, and its prices are more expensive than Windows computers with the same specifications. Security Windows is one of the most popular OS with a large software catalog to use. But Windows is more vulnerable on viruses and malware than Mac. However, we can still install antivirus on our Windows to prevent further virus or malware attack. Applications and programs One of the main differences between these two OSes are their software catalog for each OS. Majority of computer programs are made for Windows. In general, if you want to be able to use various kinds of software, a computer with Windows is a better choice than Mac. One of the advantages of Mac OS is a wide variety of app included on its store, which make it easy for you to buy and download programs to your computer. But in Windows OS, Microsoft Store or Amazon offers the similar concept too.	Windows OS	
Response number: 3	BITM1113 (FAAIZAH)	Macintosh is better because it has its own security system and not like windows which has to install the other security app.	Macintosh	Macintosh
Response number: 4	BITM1113 (FAAIZAH)	In my opinion, Macintosh is better than Windows because : 1) Macintosh has better screen -Macs' screens have anti-reflective coatings and no air gap in terms of high DPI display. 2) Macintosh has more excellent software -Apps including Photos and iMovie are already installed in Mac, even Mac can't display some Microsoft apps, we still can install Window in a Macintosh to run these apps. 3) Macintosh has better quality -The components and operating system has been integrated to optimise their cooperation, causing Macintosh has better quality and required less energy than Windows.	Macintosh	Macintosh
Response number: 5	BITM1113 (FAAIZAH)	For me, I would say Windows is better than Macintosh because I am more familiar using Windows as I using it since I was 7 years old. Other than that, Windows OS is more specific and more accessible also more unrestricted because sometimes I always explore every

Assignment 2 Question on Animation Principles

The screenshot shows a web browser window displaying the UPI (Universitas Pendidikan Indonesia) assignment submission interface. The browser address bar shows the URL: <http://ulearn.utem.edu.my/sem1201819/mod/assign/view.php?id=198092&action=grading>. The page title is "Assignment" and the user is logged in as "Dosen UPI".

On the left sidebar, there is a "Server Time" section showing the server time as "Sat 11:32:21pm" and the user time as "Sat 11:32:22pm". Below this is a "Calendar" for November 2018, with the 24th highlighted. An "Events key" is also present, listing options to hide global events, course events, group events, and user events.

The main content area displays a list of students and their submission status for the assignment "Assignment 2 Question on Animation Principles". The table below summarizes the data shown in the screenshot:

Student Name	Student ID	Submission Status	Grade	Submission Date	File Name	Comments
